MEDICATION MANAGEMENT

WEDNESDAY, MAY 25th

BVILLE SENIOR COMMUNITY CENTER

501 2nd Ave. NE

Minnesota seniors are invited to take advantage of a program designed solely to help you learn more about the medications you are taking and to have expert advice from pharmacists who are medication specialists. These FREE medication assessments are funded by a federal grant and sponsored by Dancing Sky Area Agency on Aging and Lake Region Healthcare.

In your one-on-one meeting with the pharmacist, your medications will be assessed for all types of drug therapy problems and issues. After your assessment, the pharmacist will provide you with a list of written recommendations. A copy of the recommendations will be sent to your Primary Care Physician and the pharmacy where you purchase your medications.

These confidential, individual assessments are by appointment only. Contact HELPERS @ 218-354-7090 with any questions you might have and to schedule your 30-60 minute medication assessment.
